

IARE
INSTITUTE OF
AERONAUTICAL ENGINEERING

Skills Earned

Cybersecurity Fundamentals
Penetration Testing Techniques
Web Application Security
Secure Coding Practices
Web Application Firewall (WAF)
Bypass Techniques
Capture the Flag (CTF) Challenges
Malware Analysis Fundamentals
Safe Malware Handling Practices
Static Malware Analysis
Dynamic Malware Analysis
Combining Static and Dynamic Analysis
Report Writing

postdev.in

Certificate Of Completion

This is to certify that

K Srinija

has successfully completed the first phase of the **Applied Cybersecurity Skills** bootcamp, focusing on **penetration testing**, from **November 4th, 2023, to January 6th, 2024**, and the second phase, **Practical Malware Analysis**, from **April 12th, 2024, to April 27th, 2024**, conducted by Postdev.in in collaboration with the IIRC, IARE in hybrid mode. Their participation has yielded valuable expertise and hands-on experience, showcasing their skills in both penetration testing and malware analysis.
